

Stock Product Line

Oil and Gas

Product	Class	Description
NC SC-5000	Scale Control	Phosphonate/copolymer antiscalant
NC SC-5000W	Scale Control	Winterized NC SC-5000
NC SC-5500	Scale Control	Phosphonate antiscalant
NC SC-5555	Scale Control	Barium sulfate and mixed scale inhibitor
NC SC-6000	Scale Control	Low cost antiscalant
NC SC-6000W	Scale Control	Winterized NC SC-6000
NC SC-9000	Scale Control	Phosphonate/copolymer/acrylic acid scale inhibitor
NC SC-9000W	Scale Control	Winterized NC SC-9000
NC NE-1000	Non-emulsifier	Low cost non-emulsifier
NC NE-1050	Non-emulsifier	High performance non-emulsifier
NC NE-9000	Non-emulsifier	Solvent based non-emulsifier
NC ME-2400	Microemulsion	Proprietary flowback aid
NC ME-1200	Microemulsion	Half strength NC ME-2400
NC FR Breaker	Emulsion breaker	Ferrous emulsion breaker
NC HI-2000	Hydrate inhibitor	Low cost hydrate inhibitor
NC HI-2500	Hydrate inhibitor	High performance hydrate inhibitor
NC PPD	Pour point depressant	Field proven pour point depressant
NC CC-7070	Clay Control	Choline Chloride based clay treatment
DBNPA, 5%	Biocide	Quick kill, non-oxidizing biocide used to control microbial, fungal, and algal growth
DBNPA, 20%	Biocide	Quick kill, non-oxidizing biocide
Isothiazoline, 1.5%	Biocide	Broad spectrum biocide for algae, bacteria, and fungi control
Dazomet, 24%	Biocide	Controls slime forming and spoilage bacteria
Glutaraldehyde, 25%	Biocide	Bacterial growth controller
Glut/Quat (14 : 2.5)	Biocide	Effective against slime forming bacteria, sulfate reducing bacteria, and algae
